

Carl Benz School of Engineering

The Carl Benz School of Engineering is the Mechanical Engineering College of the Karlsruhe Institute of Technology (KIT), which is one of the most prestigious technical universities in the world. CBS offers a Bachelor of Science Program in Mechanical Engineering (International). The teaching language is English.

The Carl Benz School is located in the German state of Baden-Württemberg which boasts the highest research and development expenditure in Europe, as well as the largest number of employment opportunities in high-tech industrial sectors.

Graduates with advanced knowledge in Mathematics, Physics & Chemistry may apply to CBS to become leaders in engineering, development and production. Students can choose from three specializations, i.e. Automotive Engineering, Global Production Management or Energy Engineering.

Striving to be an engineer?

The Carl Benz School of Engineering offers two Summer Programs: the CBS Summer School in Karlsruhe, Germany and the Summer Engineering Academy in Suzhou, China.

Each year the Summer Programs provide high school students, with a passion for mathematics, physics and technics, an inside view on Engineering studies in Germany.

We are happy to welcome international high school students from all over the world to take part not only in lectures lead by specialists and professors from the Karlsruhe Institute of Technology (KIT), but also in hands-on workshops. The exciting program provides great insights into the world of mechanical engineering.

This summer comes with the chance to discover one of the most exciting professions in the world!

Join us!

- Get to know the world of engineering
- Attend fun engineering workshops
- Listen to fascinating lectures
- Find out about studying in Germany
- Meet people from all over the world
- Make new friends

Summer School Impressions

»The CBS Summer School was a really **good balance between hands-on activities and lectures.**

I got a really good taste of what mechanical engineering at CBS is like. My favorite part was the trip to the Mercedes Benz factory.

It really showed **what you can do with engineering.**«

Toby from England

»Normally, when you have holidays, you forget about what you learned in school.

At the summer school you can practice and use what you have learned every single day.

This experience also helped me to **get a clearer idea of what path to follow** in my future.«

Nester from Spain

Summer Engineering Academy Impressions

»I joined the Summer Engineering Academy because I wanted to **get a better idea of what it would be like to work as an engineer.**

I also wanted to see what I would learn in university. The math and physics we learned are pretty different to what I learn in school. It is cooler. I am happy I took part.«

Cesar from Brazil

»I like the Summer Engineering Academy because the content includes **both practical and theory** and gave us a lot of knowledge. It shows us **what we will have to face** in university and that's really good.«

Kotchakorn from Thailand

Locations

Carl Benz School Campus in Karlsruhe, Germany

On-Site Format 2024

Dates: Week 1: July 1st - 5th, 2024

Week 2: July 8th - 12th, 2024

Two parallel sessions offered:
One for young women only!

Week 3: July 15th - 19th, 2024

Costs: 990 EUR
