Information about the study offer

The Bachelor's program Mechanical Engineering (International) is an independent English-language B.Sc. program of the KIT, which can be followed up with an English-taught Master's program in Mechanical Engineering. It combines classical general Mechanical Engineering with international components.

This program has been designed specifically for international students who do not speak German, yet want to pursue engineering studies at a leading German Technical University. In addition, the engineering courses are combined with a high level of additional services comparable to a college structure known from the Anglo-American university system. These additional services are organized by the Carl Benz School of Engineering of the KIT. For further information regarding details on the application process please contact: admissions@carlbenzschool.kit.edu ☒; Phone: +49 721 608 4 7901

www.carlbenzschool.kit.edu

Program Information

Please prepare the following documents for upload:

- High School Transcript of Records
- School Leaving Certificate (if available)
 - All required certificates must be submitted by October by the enrollment deadline at the latest

Please choose “next” and you can start with your official application for Mechanical Engineering (International).

1. Applicant Detail

Please note that the fields marked with * are mandatory fields. You cannot proceed without filling them out. The field town/county can be filled with a “-“ (Unless you live in Germany, then you can fill it out.)

Student ID (internal applicants only)

Mandatory fields *

Please enter your Student ID if you have already enrolled at our university.

KIT Student ID

Personal information

Mandatory fields *

Form of address *

First name *

Middle name(s)

Name *

Gender *

Name at birth

Date of birth *

Place of birth *

Country of birth

1st Citizenship *

2nd Citizenship

Kind of graduation *

Country of entry qualification *

Address information

Remark

Mandatory fields *

File 6901092_MEI_4_2022-01-04-09-12-17.pdf

Remark

- ➔ Choose your kind of English language proof and upload the document.
- ➔ "Save" your input and choose "next".

6. Special purpose application

You have the option of submitting special applications in addition to your normal application. These requests are governed by the Ordinance of the Federal Ministry of Education and Research on the Allocation of Study Places in Admission-Restricted Study Programs by the Universities of Baden-Württemberg, as well as the Admission and Enrollment Regulations of the KIT (see official announcements). **Special applications are subject to strict requirements. Please check whether you meet the requirements for a special application before adding it, using the explanations on the right.**

The following special application types are only available for bachelor's degree programs with restricted admission (1. Semester):

- Preliminary selection
- Disadvantage compensation / Improvement in waiting time
- Disadvantage compensation / Improvement in the average grade

The following special application types are permitted for all admission-restricted study programs (only 1st semester):

- Hardship application
- Local binding in the public interest

Please note that the special application and all supporting documents relating to the application must be received by the university in due time with your application for admission to the study program so that it can be taken into account in the award procedure.

Invalid applications will not be processed!

- Multiple entries are possible by clicking on the "new" symbol.

- ➔ "Save" your information and choose "next".

7. Additional information

Please fill in the requested information about “Where did you hear about the Carl Benz School?”. You can choose available options via the dropdown menu. This information helps our team to optimize where prospective students can find us.

➔ “Save” the input and choose “next”.

8. Additional Documents

Application Documents

If additional documents are required from you to submit your application, they are listed below.

If no documents are requested below, please click "Next" to continue with an application.

If there are any documents required for enrollment listed below, please attach them using the upload function and click "End".

If you have already uploaded files you can reuse them. In doing so a copy of the already uploaded file is created automatically. Please note that you can submit your application only after you have uploaded all required documents for admission.

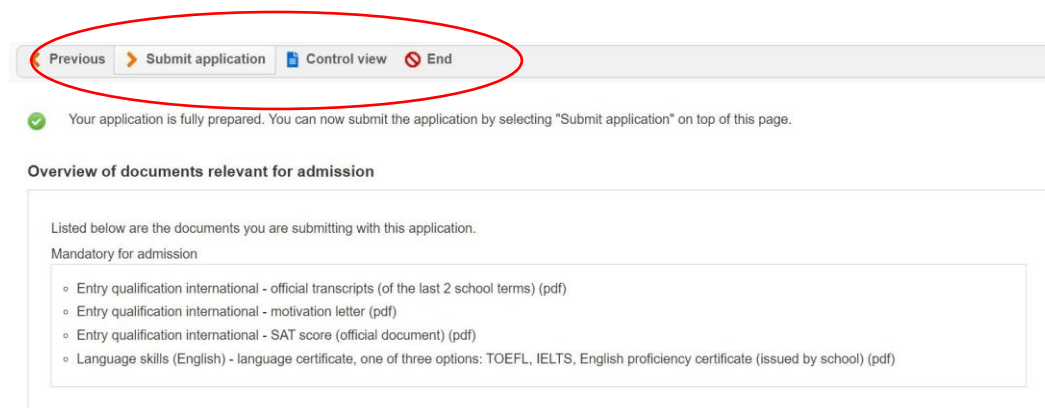

Documents

➔ “Save” the input and choose “next”.

9. Application summary

Here you receive an overview about the completeness of your application documents.

If any documents are missing, you will be asked to upload them accordingly; otherwise, you will not be able to submit the application.

The screenshot shows a navigation bar with four buttons: "Previous", "Submit application", "Control view", and "End". The "Submit application" button is highlighted with a red oval. Below the navigation bar, a green checkmark icon is followed by the text: "Your application is fully prepared. You can now submit the application by selecting 'Submit application' on top of this page." Below this, the section "Overview of documents relevant for admission" is shown, containing a list of documents to be submitted:

- Entry qualification international - official transcripts (of the last 2 school terms) (pdf)
- Entry qualification international - motivation letter (pdf)
- Entry qualification international - SAT score (official document) (pdf)
- Language skills (English) - language certificate, one of three options: TOEFL, IELTS, English proficiency certificate (issued by school) (pdf)

- ➔ Please choose “Submit Application” to finalize your application for Mechanical Engineering (International).

Congratulations! Your application is now submitted.

You will receive a notification via the KIT Application Portal if any documents should be missing. Missing documents can be submitted within the application period through the Application Portal where you can also view your application status. The final admission decisions will be notified 2-3 weeks after the application deadline has passed on April 30th each year. Please check your email inbox at a regular basis.

Any questions?

Our helpful team is always happy to provide assistance during the application process.

Should you have any questions, please take a look at our FAQ: <https://www.carlbenzschool.kit.edu/frequently-asked-questions.php> or get in touch with us.

You can reach us best via email at admissions@carlbenzschool.kit.edu or via phone during office hours by calling +49 (0) 721 / 608-47901.

We look forward to your applications!

Joining the College Program

Don't forget to register for the CBS College Program!

To ensure your exclusive participation in the CBS College Program, please follow the steps on the College Program Registration Portal. Registration for the CBS College Program is possible year-round, but we recommend an early registration as the spots are limited.

Please note that a valid admission offer to the B.Sc. in Mechanical Engineering (International) study program is required for the participation in the College Program. After your successful registration for the College Program, we are going to contact you very soon after the admission decisions from KIT have been sent out and inform you about the status of your registration.
